Dear Dr. Lukács,

I have come across your name in connection with my reading of works dealing with Marxism and Culture.

Nearly all references to your works, "History and Class Consciousness," "Lenin," and "Nietzsche and Fascism" have been derogatory. This is not surprising as all your critics are social-reformists, or just plain, 'honest' democrats of the Wall Street variety.

I would be deeply obliged if you could tell me whether any of your works have been

translated into English. Further, any  
indication of how I could get  
hold of your books would be  
much appreciated,

Yours fraternally,  
Allan Vaughan.

ALLAN VAUGHAN.

P.S. I do not know whether I could  
pay by post, if you sent them on  
yourself.
